Resumo:

Let's Discover Europe Using New Technologies is a European Project, funded under the European Union Comenius School Partnerships programme. The Project partners - from France, Italy, Latvia, Malta, Poland, Portugal and Romania - bring a range of expertise in working with young people, using science, theatre, music, dance, literature and the English language, in order to understand and acquire knowledge from all partners' cultures.

The Project was established to raise students' achievements, improve the knowledge of the English language, develop the quality and increase the volume of mobility involving staff and students, enhance the quality and increasing the volume of partnerships between schools and support the development of ICT based content, services, pedagogies and practice.
